

Benjamin Wood

Trainee Patent Attorney

Before joining J A Kemp, Ben studied at the University of Cambridge for a Master's degree in Mechanical Engineering, gaining knowledge in a wide range of areas including dynamics and vibration, solid mechanics, composite materials, electronics, and fluid mechanics. He undertook a final year project to design and deliver a laboratory experiment for third year Engineering undergraduates to complete as part of their studies, teaching them about energy transfer within a hybrid combustion-electric powertrain.

Ben joined the firm in 2023 and is based in the London office.

Services & Specialisms
