

Mark Cooper

Trainee Patent Attorney

Mark joined J A Kemp as a Trainee Patent Attorney in 2023 from an intellectual property consultancy firm. After studying Chemistry at the University of Warwick, Mark spent time as a Research and Development Scientist where he worked on the development of a commercial biotechnological diagnostic test.

Mark has worked with clients covering a range of technologies in the chemistry and pharmaceutical space. He has experience in helping clients with developing their intellectual property strategy as well as with drafting and prosecution matters.
