

Noah Glasgow-Simmonds

Associate, European and UK Patent Attorney, European Patent Litigator

Noah is a European and UK Patent Attorney. His work includes the drafting, filing and prosecution of patent applications in all areas of chemistry.

He enjoys working across a range of chemical sciences, and in particular has experience in handling subject matter including nanoparticles, cosmetics, pharmaceuticals, peptide chemistry and pigment chemistry.

Before joining J A Kemp, Noah studied for his MChem degree at the University of Oxford, where he gained knowledge of a wide range of subjects including organic, biological, physical, theoretical, polymer, pharmaceutical and inorganic chemistry. His final year research project focused on using P450 enzymes to oxidise C-H bonds as part of the synthesis of natural-grade flavour and aroma compounds.

Noah joined J A Kemp as a trainee patent attorney in 2018 and became an associate in 2023. He is based in our London office.

Services & Specialisms

Patents, Invention Discovery, Patent Drafting, Filing and Prosecution

Location

London

Education

University of Oxford, Masters degree in Chemistry

Qualifications

European and UK Patent Attorney; Representative before the UPC

Membership of Professional Bodies

Member of CIPA and a member of the Royal Society of Chemistry; Fellow of the Chartered Institute of Patent Attorneys (CIPA); Member of the Institute of Professional Representatives before the European Patent Office (EPI)
