

Patrick Campbell

Partner, European and UK Patent Attorney

Pat is a European and UK Patent Attorney and Head of the Biotechnology and Life Sciences Group, one of the biggest Groups of its type in Europe.

Pat has a life sciences and pharmaceuticals practice for clients based in the United States, the UK, the rest of Europe and Japan. He has directed prosecution of patent families covering over 70 countries, but a high proportion of Pat's work is prosecution, opposition and appeal work in the European Patent Office (EPO). He has handled about 80 opposition matters in the EPO over the course of his career to date. He has advised on multi-national litigation and counsels clients on freedom-to-operate issues.

Examples of subjects on which Pat has helped clients include the following: rozanolixizumab, an antibody for treating autoimmune diseases; bimekizumab, an antibody for treating psoriasis; romosozumab, an antibody for treating osteoporosis; a platform technology for delivering proteins to the brain for treating neurodegenerative and metabolic diseases; gene editing and gene therapy technologies; a platform technology for oral delivery of vaccines; acellular whooping cough vaccines; manufacturing processes for antibodies and other biological molecules; biologicals including pegylated G-CSF, a product used to treat patients suffering from low levels of white blood cells as a result of cancer chemotherapy; small molecule drugs including enzalutamide, an important drug for prostate cancer; techniques for converting non-pluripotent cells into pluripotent cells; methods of engineering bacteria to produce chemicals for making polymers; drought-resistant plants; and diagnostic tests for heart disease and cancer.

Pat was a scholar at Cambridge University and graduated from there in 1991 with a first class degree in Natural Sciences and specialisms in biochemistry and organic chemistry. He qualified as a European patent attorney in 1995 and as a UK chartered patent attorney in 1996. During his professional exams, he was awarded the prize for the top mark in the UK in the Patent Attorneys' Practice Paper.

Pat is recommended by The Legal 500 where clients comment that he is "a very knowledgeable European patent attorney with broad experience in antibody patenting and other relevant areas of the biopharmaceuticals sector"; "has an excellent understanding of the industry and proactively addresses industry needs"; "is a very nice and approachable person". According to a client quoted in Chambers & Partners, Pat "is forward-thinking and has done a phenomenal job on EPO oppositions". Pat is also recommended by *IAM Patent 1000*, "Pat is technically astute and strategically oriented, he knows how to deliver sound patent advice that meets his patrons' every business goal."

Pat joined J A Kemp in 1991 and became a partner in 2001.

Services & Specialisms

Patents, Freedom to Operate, Invention Discovery, IP Strategy, IP Due Diligence, Patent Drafting, Filing and Prosecution, IP Review, Patent Oppositions and Appeals, Portfolio and Cost Management

Location

London

Education

University of Cambridge, Masters Degree in Natural Sciences
